

Cattle Head Restraint

Bullhead fixer

Product code	151
Specification code	1511
Primary category	Cattle Farming Equipment
Secondary category	Cattle Farm Tools

This cattle head restraint is designed for vaccination work, veterinary injection procedures, animal restraint and handling in cattle farms, ranches and livestock farms. Its practical structure is intended for reliable day-to-day operation.

Features

- Material: stainless steel.
- Integrated wheels facilitate movement and repositioning.
- Corrosion-resistant construction is suited to humid livestock environments.

Advantages

- Improves day-to-day operating efficiency.
- Reduces manual workload and repetitive handling.
- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.

Description

Suitable for vaccination work, veterinary injection procedures, animal restraint and handling in cattle farms, ranches and livestock farms. Before use, inspect the injector, needle, container and all connections, and set the required dose where applicable. Clean and disinfect reusable components after operation and follow farm veterinary hygiene procedures.
