

Cattle Anti-Kick Bar

Cinnamon-pumping bulls with a kickstick.

This cattle anti-kick bar is designed for routine use in cattle farms, ranches and livestock farms. It uses galvanized finish construction or components suited to routine farm use.

Features

- Product type: cattle anti-kick bar.
- Material: galvanized.
- Material: galvanized steel.
- Corrosion-resistant construction is suited to humid livestock environments.
- Anti-slip design improves stability during use.

Advantages

- Improves day-to-day operating efficiency.
- Simple maintenance helps lower routine service requirements.
- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.

Description

Suitable for routine handling of cattle. Check the product, installation points and connecting components before use. Operate according to the selected model and farm procedure, clean the equipment regularly, and replace worn parts when necessary. Final dimensions, configuration and operating limits should be confirmed against the actual ordered product.
