

Cattle Anti-Kick Bar

Cream-plated cattle with a kicker plus two head.

Product code	205
Specification code	2302
Primary category	Cattle Farming Equipment
Secondary category	Dairy Farm Equipment

This cattle anti-kick bar is designed for routine use in cattle farms, ranches and livestock farms. It uses galvanized finish construction or components suited to routine farm use.

Features

- Material: galvanized.
- Configuration: +2 pcs.
- Material: galvanized steel.
- Corrosion-resistant construction is suited to humid livestock environments.
- Anti-slip design improves stability during use.

Advantages

- Improves day-to-day operating efficiency.
- Easy cleaning supports better hygiene management.
- Simple maintenance helps lower routine service requirements.
- Stable construction supports reliable routine operation.

Description

Suitable for routine handling of cattle. Check the product, installation points and connecting components before use. Operate according to the selected model and farm procedure, clean the equipment regularly, and replace worn parts when necessary. Final dimensions, configuration and operating limits should be confirmed against the actual ordered product.
