

Infrared Heat Lamp Shade

Red Bean Mask 215P

Product code	041
Specification code	0411
Primary category	Environmental Control Equipment
Secondary category	Heating and Insulation Equipment

This heat-lamp shade and holder is designed for young-animal warming and thermal management in livestock farms. Its practical structure is intended for reliable day-to-day operation.

Features

- Suspended installation keeps floor space clear and supports convenient positioning.
- Purpose-built structure for routine use as a heat-lamp shade and holder.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

Advantages

- Simple maintenance helps lower routine service requirements.
- Flexible operation makes the product easier to use in different farm areas.
- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.
