

Infrared Heat Lamp Shade

The temperature shield is small, with springs.

Product code	041
Specification code	0752
Primary category	Environmental Control Equipment
Secondary category	Heating and Insulation Equipment

This heat-lamp shade and holder is designed for young-animal warming and thermal management in livestock farms.

Features

- Spring-return construction supports convenient repeated operation.
- Purpose-built structure for routine use as a heat-lamp shade and holder.
- Simple construction supports convenient installation, operation and maintenance.
- Designed for regular use in livestock-production environments.

Advantages

- Supports efficient day-to-day livestock management.
- Practical construction simplifies routine operation and maintenance.
- Suitable for regular use in commercial farm environments.

Description

Suitable for young-animal warming and thermal management in livestock farms. Check the product, installation points and connecting components before use. Operate according to the selected model and farm procedure, clean the equipment regularly, and replace worn parts when necessary. Final dimensions, configuration and operating limits should be confirmed against the actual ordered product.
